Subject: I: WinterSchool @Uni Mainz: February - March 2026

Dear Lenka Tucek,

Thank you for your email and for sending us the details of your upcoming Winter (and Summer) Schools.

I sent your email to our publishing team, to include the information on the University of Pisa website at the following dedicated [webpage](#), making it available to potentially interested students.

I'm also happy to inform you that also the University of Pisa has published **the new offer of Summer/Winter School programs for 2026**.

In 2026 University of Pisa is offering 43 Summer/Winter Schools covering almost all study areas, with some brand new programs activated for the first time (Please notice that a few more programs may still be added in the coming weeks)

There are some Winter Schools in January/February 2026 and there is plenty of Summer Schools, mainly in June/July 2026.

Most of the programs are on campus, but there are four of them which are 100% online, and some others which are offered both online and on campus.

We would really appreciate if you could share this information and opportunity with your students.

Detailed information about the 2026 Summer/Winter Schools offer is available at [UNIPI - Summer/Winter Schools](#).

Programs are divided in 6 main study areas.

Clicking on the study area of interest students will access the webpage with the list of related programs.

Clicking on each Summer School title students will access the dedicate webpage with plenty of information about it, such as general program, admission requirements, application deadline and start date, cost...

Applications are already open and information about the application procedure is available at the following webpage: [“How to apply” page](#).

Should you require any further information about the University of Pisa Summer/Winter Schools, or should you have any questions, please do not hesitate to contact me at my personal email address or at support.summerschool@unipi.it.

Best regards,

Erica Ribechini
